The Santa Circuit

By BUDDY SMITH

All my life I've heard the old wives tale that if it rains on the first day of the month, it'll rain for fifteen days in that month. Well, in Walker County, Texas it rained the first day of June, and thus far, five additional days. This is one time I hope we can put a little stock in an old wives tale. South and southeast Texas could sure use that rain.

South Texas may have been dry, but not dry enough to keep the buyers away from the May Ranch Production Sale. Demand was strong with a large volume of the cattle going to Oklahoma. Volume buyers were: Chaparral Ranches, Le Pryor, Texas; Frank Hines, Emory, Texas; and Carl Pantergrass, Del Rio, Texas.

Volume bull buyers were: George Ray and Son, Pecos, Texas; Mesquite Land Cattle Co., Hoboken, and Dudley T. Dougherty Estate, Basville. I hope you were at the Tri Star Production Sale. If not, you missed a beautiful setting for a sale. The sale was held at Mayfair Ranching, Washington County, and overlooked the Yegre River bottom. The day was beautiful, the setting was picturesque, and cattle prices were excellent, with a \$2885 average. This sale supported my belief that buyers appreciate and respond to a good, clean, wholesome sale location.

The Mid-Coast Santa Gertrudis Association held its spring sale the day following the Tri Star Sale. There were thirty-six different buyers, with cattle going to Oklahoma, Georgia, Louisiana, and Texas. Volume buyers were: Mayfair Ranch, Brenham, Texas, with twenty-one lots. Sale gross was highest ever for the Mid-Coast Spring Sale, with female averaging \$418.99, and bulls averaging \$1,005.86. This was a non-screened sale, with the female average reflecting 8 Bred, and bred heifers, as well as pairs. High selling female was consigned by the Wharton County Youth Fair to Nina Bar Ranch, for \$1,800.00. High selling bull was consigned by Double Circle Ranch, Franklin, Texas, and went to Zee Morehead, Willis, Texas. The elm of the Mid-Coast Santa Gertrudis Association with 41 in the best to 20 in the worst.

Western Heritage Sale Will Present Exceptional Selection of Cattle, Quarter Horses, Art on July 15th

Last year's Western Heritage Sale met all expectations when a sell-out crowd enjoyed the glamour and festivities of the elegant affair and purchased over \$500,000 worth of Santa Gertrudis cattle, Quarter Horses and contemporary Western art. Working diligently to make this year's event even more spectacular and to break existing sales records, sponsors of the 1978 Western Heritage Sale feel the selection to be offered will top anything ever assembled and sold at one function.

The 1978 sale evening is scheduled for July 15th at Houston's Sheraton Hilton Hotel. Both the Santa Gertrudis cattle and Quarter Horses will be housed on the front lawn of the hotel in gaily striped tents for three days prior to the sale, while the Western art will be displayed inside. On the evening of the sale, both animals and art will be brought into the Grand Ballroom where they will be auctioned during the black tie dinner and festivities. Approximately 1,100 persons will attend the by invitation-only affair, and sponsors report that interest is greatly increased over last year. They expect the sale to be completely sold out by early June.

Sponsors for this year's event include John Connolly, Louis Pearce, Rex Cagle, Joe Merchman, John Juelin and the National Cowboy Hall of Fame. The Western Heritage Sale is a nonprofit organization, and all sponsors serve without pay including Merchman who is responsible for the coordination and mechanics of the entire event.

During the auction the Santa Gertrudis and Western art. Paces will provide the information on the quarter horse sale, both animals and art will be (CONT. ON PAGE 5)

three categories of this year's sale, and to honor the high purchaser of an individual item in each category, sponsors will present these three persons with original Western Heritage Sale buckles, designed and cast by well-known sculptor Jim Reese. Many celebrities and notable guests are expected to attend this year, and national press coverage is again anticipated. Nutritionist Joins Cattle Feeders Assn.

(CONT. FROM PAGE 1)

Association has been out front for several years in looking for answers to the questions about beef, but it has now become evident that just having the answers is not enough.

The beef industry must make greater efforts to see that the information gets where it is needed — to the shoppers who make day-to-day food buying decisions.

TCFA has moved another step in that direction by hiring Anne Ilse, a professional nutritionist and educator with more than seven years experience in helping consumers understand the mysteries of proper nutrition.

"Cattlemen have long felt that we produce a superior product, and therefore, the world would beat a path to our door — at any price," said Charles E. Ball, executive vice president of TCFA. "But the last three or four years, we have been disheartened by misinformation charges about beef causing heart disease and cancer."

"We recognize that nutrition education and research is one of our responsibilities," he said. "That's why we decided to employ a qualified nutritionist — one who was technically qualified, one with experience in working with consumers and health professionals and who understood the beef business."

Ball said Ilse will work with food editors, physicians, dietitians, nutrition researchers, chain stores, consumer organizations and others who have an influence on the demand for beef.

Also featured at the convention will be the original Texas Playboys, famous as the band behind Bob Wills. The band, with many of the original members, will perform at the dance following the banquet.

The convention will include meetings by all the BBU committees, a panel discussion of BBU programs for the improvement and promotion of the breed, a general membership meeting where new officers and directors will be elected, a luncheon, a banquet and a dance, and a Beefmaster sale November 4 at the Rex Gable facility near Deaton, sponsored by the Lons Star Beefmaster Association.

Loe Roy Jordan of Dallas is serving as Convention Chairman for the event. For information on registration and event members may contact Gene Kuykendall at the Beefmaster Breeders Universal office in San Antonio.

Sulphur, Okla.—Hereford breeders will have a "Female Opportunity Selection Day" in the complete dispersion and production sale of the Biscuit Hill Farms Cer-

tified Anxiety 4th Herefords, Wednesday, June 21, beginning at 10 a.m., at the Turner Ranch sale barn at Sulphur.

Selling will be 400 lots including 140 pairs, 100 bred heifers, 150 open heifers, and 10 herd bulls and herd bull prospects. Included in the 100 bred heifers and 150 open heifers will be some that sell in groups with 175 of Turner Ranch breeding and 75 are from the Biscuit Hill herd.

Sires represented in these heifers are Sam Donald Jr., TR Mainstream, TR Prince William, TR Brae Arden 1621, and TR Deefour 0614. The bred heifers carry the services of FL Big DP Lad 9 and The Big Arthur 6061.

than a normal upward adjustment catching the industry up with inflation of the past few years and enabling them to recover losses posted in the previous four years.

The Texas Cattle Feeders Assn. said: "It looked, from press reports, like the only two people in the U. S. who wanted more beef imports were Robert Strauss and Jimmy Carter. Consumers hardly noticed. Bob Bergland and USDA opposed the move strongly on grounds it would be counter-productive; end more than 150 representa-

Lunch will be available at the sale which will be auctioneered by George Morse and Guy Shall.

tives and senators signed letters to Carter urging him not to increase imports. Criticism centered on the political and counter-productive nature of the move, with cattlemen charging Carter was trying to "create the inflation." Industry spokesmen pointed out the beef industry would not be large enough to force prices lower, and Carter was trying to break a market that is only beginning to catch up with inflation after five years of depression.

TCFA President Leon Miller, in a statement released after the President's announcement, cautioned cattlemen against over-reaction to the bad news. "The level of increased imports is just peanuts," said Miller. "Not enough to significantly effect the fundamental supply of beef in the U. S. We can do it. The level of increased imports is just peanuts. Miller said cattlemen are 'out front selling the fed cattle, which means what we do will affect everybody down the line, from cow-calf producers to grain farmers.' He said feeders are a 'supermarket' which should allow them to keep the market intact.

The administration's action today allowing additional beef imports to this country was labeled "a grandstand play" by cattlemen. "Imports doing that time were record large — contributing to the large cow liquidation and higher beef prices now — but something was done to reduce the imports. Now when we finally start making a profit, the Administration chooses to play political games with the law and the market. It is destroying the very incentives that is needed to raise herds and eventually bring larger supplies and more moderate prices," McDougall charged.

The Carter Administration's decision to suspend beef quota limits triggered strong reaction from the Texas and Southwestern Cattle Raisers Association. The Fort Worth-based group represents 14,000 cow-calf producers in Texas and surrounding states. In a telegram sent Thursday to Robert Strauss, Carter's ambassador for trade negotiations, the Cattle Raisers called the move by Carter "intensely disappointing."

In the telegram, TSCRA President Armstrong reminds Strauss that the consumer price index has increased 13 per cent and per capita disposable income has gone up 55 per cent since 1973, the last time live cattle prices reached the levels they are at now. He added, "Throughout this period we cattlemen have been subsidizing the marketplace, while we have paid the worst financial bloodbath in this century."

Orville K. Sweet, president of the American Polled Hereford Assn., stated that "The President's decision to increase imports of foreign beef has thrown the gauntlet before the cattlemen... there has never been a better example of political piffery than comments of Administration spokesmen. The Sweet hit Bergland's remark that the 200 million pounds of imported beef would be 'dinky dink' and suggested that cattlemen should by now be insulted by not only Bergland's remarks and the following statements of Trade Negotiator Bob Strauss to the effect that cattlemen had been expected to pay for debts accrued during the past four years of depressed cattle prices. Sweet suggested it was high time the cattle industry started looking its head and to plan to ram themselves to make their power felt in the next general election."

TCFA noted: "Given some beef exporters didn't like the idea. Canada, third largest supplier of imported U. S. beef, actually saw the price of live cattle there drop by 25 per cent, while the import volume was rising."

There's just one reason you need Brangus cows working for you—PROFIT! Brangus is America's number one brood cow, because she consistently produces calves that are in great demand by stockers, feeders, packers, and consumers. And this means consistent profit for you!

Brangus females mature early, calving as 2-year-olds with no problems, and they give a 20% to 40% longer productive life. They are excellent milk producers, and their calves gain faster, wean heavier, and do better than calves of other breeds. With Brangus females, you eliminate sunburned teats, sore eyes, and other disease and pest-related problems.

Only animals with a 3/8 Brahman-5/8 Angus heritage are true Brangus, for only this combination gives animals with the hardiness, adaptability, and high production that is consistently characteristic of the Brangus breed. If you want PROFIT, you need BRANGUS!

AVOID CHANGING WET LEATHERS FOR MANY YEARS
Perma-cups are made of urethane, more wear resistant than nylon. Perma-cups will outlast leathers 10 to 1. Their tapered design allows only 1/8" wearing, instead of 5/8" of a leather. Much less friction for easier pumping extends cylinder life greatly. Perma-cups must be used in a good or new cylinder, as they do not swell. Internal Urethane Perma-cups, Urethane Check-balls, and Urethane Pump Rod-guides, and don't pull their well for many years. Thousands in wells that have not been released in 5 years! All are available in standard cylinder and pipe sizes. Write or call for our catalog. We ship same day order is received. This is our 28th year serving ranchers.

Dedication of Mabee Diagnostic Center at Scott & White Set

Dedication ceremonies will be held June 17 for the new 205,000 square-foot Mabee Diagnostic Center, the Scott and White Clinic's new laboratory, research and patient-care structure named in honor of Mr. and Mrs. John Mabee, who founded the Mabee Foundation of Tulsa, Oklahoma. The Foundation is the largest single donor to Scott and White Memorial Hospital and the Scott, Sherrwood and Brindley Foundation. The Mabee Foundation made a grant of \$1.5 million for the Diagnostic Center, which brought its total gifts to Scott and White to \$3,125,000. The Mabee Diagnostic Center began receiving its first patients on June 6. Many Scott and White Clinic Departments are the beneficiaries of greatly enlarged facilities in this new structure, built at a cost of \$1.5 million. The Mabee Diagnostic Center initially will provide space for 40 additional physicians, many of whom have come on the Scott and White staff in recent months. Later expansion will provide office space for a total of 200 physicians.
